Non-Responsive Amendment

The reply filed on 5/28/2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

The amendment does not comply with 37 CFR 1.121.

The specification was submitted as though it was a substitute specification. However, no remarks that there was no new matter was added could be found. Also, the examiner suggests that any future changes to the specification be made by annotating where the changes are to be made and not by resubmitting the entire specification.

The abstract was changed to add a statement that appears to be a description of what was changed in the claims. This belongs in the remarks section.

The changes in the claims are annotated incorrectly (See 37 CFR 1.121 and MPEP 71.03 [R2]).

Appropriate action is required.

Furthermore, an examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a

Art Unit: 3625

patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

Applicant is advised of the availability of the publication "Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office." This publication is for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
